If you are making clothing purchases for your child, you may want to take some of these suggestions into consideration. You may not realize that clothing is an important factor in the quality of your child's life at school.

1. Label all items!
2. Shoes – Consider purchasing velcro, slip-ons or zippered gym shoes if your child is not ready for lace-up runners. Children who have trouble tying their laces waste too much precious class and recess time. Your child will be putting shoes on and taking them off MANY times per day!
3. Jackets– Have your child try the zipper a few times. If the jacket has buttons, ask them to do up the buttons. If he/she requires assistance reconsider the purchase or spend time practicing with your child. Jean jackets are often difficult for young children to manage.

Please label all items!
